MEET EWAN McDONALD

Ewan is a 4th generation farmer from Northern Victoria near Rochester. He comes from a family with a proud tradition of serving its community.

Married with six children, Ewan is concerned they are growing up in a far more hostile environment than the one previous generations enjoyed. Big government, high taxes, growing public debt, over-regulation, increasing cost of living, political correctness, and the growth of anti-freedom ideologies like Islam, are impacting on our Australian way of life.

Ewan has a wide breadth of knowledge on the issues affecting rural and regional communities. He is concerned with the way extreme green ideology is influencing irrigation water policy and energy policy. Unfounded alarmist claims regarding environmental degradation are driving water policy to the detriment of irrigators.

Alarmist and irrational concerns regarding climate change are by far the largest factor in Victoria having some of the most expensive electricity in the world.

The impact on freedom of speech from political correctness and government appeasement to noisy minority groups is of great concern to Ewan. He is convinced that ALA is the only party contesting this state election with a priority to regain and preserve freedom of speech for all Victorians.
