

Representation Review - Banyule City Council - Preliminary Submission
Kevin Biaggini - Ivanhoe - 23 Jul 2019

I have lived in Ivanhoe for 23 years and been active in the Banyule area for most of that time. I have dealt with the council on developments in the area, and I have been vocal in Council both for and against certain development applications pertaining to Ivanhoe and other suburbs in Banyule. I have at times a member of certain groups who have engaged with Council on a range of important issues.

For a time I was a member of the Community Consultative Committee for the Ivanhoe Project that dealt with the establishment of the Ivanhoe Activity Area, then referred to as the Ivanhoe Activity Centre.

For the last ten years I have attended almost all of the Council Meetings and have spoken on a broad range of matters and submitted questions to Council.

I know the Councillors and the Council Officers well.

They are a good team that works well.

In my opinion there is nothing wrong with the present structure and quite a lot good about it. Banyule would be better left as it is.
