

**Representation Review - Banyule City Council - Response Submission
Greta Gillies - Heidelberg Heights - 11 Sep 2019**

I welcome the more even distribution of councillors per resident seen in all options. However, my first preference is for option A, 3 wards with 3 members in each. I hope this option will help get more women into local government and may encourage a more working together spirit as councillors to work together for their ward. Seems to work quite well in Yarra.
