

Electoral Representation Review – Boroondara City Council - Response Submission
Karl Bennett – Camberwell – 3 May 2019

Option A seems to provide a more coordinated governance of the areas we live in rather than small spot based focus.

For this reason I favour fewer wards (4) with multiple councillors as recommended. Having 11 councillors (odd number) is good to break tied votes.

Multiple councillors per ward also is likely to provide a more balanced outcome and avoid potentially biased single person outcomes that may not reflect the desires of the ward.
