

I support Option A (the preferred option) as shown on p.27 of the preliminary report, namely :
Boroondara City Council consist of eleven councillors elected from four wards (three three-councillor wards and one two-councillor ward).

I also support the proposed boundaries and names for the four wards, as shown in the map displayed on p.31 of the preliminary report.

I fully agree with all the arguments adduced in support of this option, as they are summarised in the preliminary report (see Option A p.22 to p.24).

Michel Beuchat\s\s
