

Electoral Representation Review - Boroondara City Council - Response Submission
Bryony Cosgrove - Camberwell - 7 May 2019

I support option A, allowing for multi-member wards of 3,3,3, and 2 councillors per ward. With multi-member wards a variety of interests and points of view will be put forward, unlike the current structure in which sectional interests of individual ward representatives dominates. There is little or no diversity of opinion within the current structure and therefore a lack of true representation of wards.
