

Dear Sir/Madame,

I as a resident of Boroondara would like to choose the MULTI MEMBER WARD SYSTEM. I believe it leads to more democracy.

I recently met and talked to a councillor of another council. The conversation shocked me terribly. It showed me how shallow many of us are, me at times in the past included, when we vote to select our representatives to conduct their responsibilities in the society that we hold dear. It is sad to see that it is true that many of us choose apples, a fish, a bunch of silverbeet at the market more careful than choosing our representatives.

We as residents of Boroondara and citizens of Australia need to work hard with the system, to pay attention to the working of the system, how councillors work and what they do and we have to do the same with our other representatives

Our representative councillors of course, in order to deserve their position, the one that we voted them in, also needs to uphold their promises, their oath, and do a good job or even better than what is considered good, i.e. excellent, so that we know that we live in a good system and what it is like living in a good system.

Among the responses published, there was one from a past councillor who reminded some councillors to work harder. I saw the same with the councillor I mentioned above. I wonder how best for the Council to explain to us the amount of work weekly each does.
