

Electoral Representation Review - Boroondara City Council - Response Submission
Sean Kellett - Canterbury - 7 May 2019

I support the preferred option (Option A) described in the preliminary report. I agree the current single member ward structure should be replaced with three 3-member wards and one 2-member ward.

The City of Boroondara is changing, and the Council ward structure should change accordingly. For example, with Option A, the Council will fairly represent new community of interests - such as apartment owners - who are adding to the changing face of our City.
