

Electoral Representation Review – Boroondara City Council - Response Submission
Lauren Pant – Camberwell – 7 May 2019

I support option A. The proposed boundaries broadly capture the communities of interest within Boroondara. Residents are familiar with their suburbs, major shopping centres and landmarks and the main roads which act as dividers.

I don't think many people could even name the ward they live in. The council has claimed the existing wards have a distinctive character, but I disagree. and it's definitely not true of many of the wards proposed in Option C.
