

Electoral Representation Review – Boroondara City Council - Response Submission
Darren Quin – Canterbury – 5 May 2019

I believe that Boroondara needs a multi-councilor ward structure to ensure that each ward has councilor representation should one councilor from a particular ward decide to withdraw from voting on an issue, This would ensure the residents of that ward have a voice and representation in decision making.

The multi-ward structure would also reduce the opportunity for corruption and collusion by Council and result in a transparent process in voting on important issues.
