

Electoral Representation Review - Boroondara City Council - Response Submission
David Ross - Ashburton - 8 May 2019

I support Option A.

The divisions therein best reflect my sense of my community of Ashburton and what I know of the surrounding communities.

The multi-councillor wards offer the opportunity to more easily change the voter to councillor ratios as populations change and to better reflect the diversity of interests in each community and the entire council area. It will hopefully allow voters to choose councillors from a larger and more diverse field of candidates.
