

Electoral Representation Review - Boroondara City Council - Preliminary Submission
Suzanne Beck - Camberwell - 12 March 2019

To the VEC

Dear Sir/Madam\s\s

\s\s

I have lived in Lynden Ward since 2001. Over these 18 years I have been served very well by the single councillor for each Ward. I have had a clear and well known point of reference under the existing model which has permitted and promoted direct and independent representation on matters that affect the Boroondara area as a whole, but also permits an important direct representation in relation to Ward specific matters.\s\s

\s\s

I am not opposed to minor boundary modifications to the existing Wards to ensure approximately equal representation for all voters, but see no reason to change the existing number of Wards. Our existing representation is very effective and provides sufficient direct local connection to be fair to all voters. \s\s

\s\s

More Wards or more Councillors seems unnecessary and wasteful at this time. \s\s

\s\s

Thank you for considering my views.

Suzanne Beck
