

[REDACTED]

Date: 13 March 2019

I wish to make a submission to the Commission's review of local government representation regarding the City of Boroondara.

Should the municipality be unsubdivided or divided into wards?

I am in favour of maintaining the division of the municipality into wards. This assists with accountability by councillors regarding their role in voting and responding to requests from residents.

How many wards should there be?

Based on demographic data the current number of 10 wards is supported without change.

Ward boundaries

Demographic data indicates that the current boundaries are appropriate.

Ward names

The current ward names relate to their areas and are supported without change.

Number of councillors

One councillor per ward is considered appropriate.

I am not seeking to speak to my submission.

Please do not publish my address and contact details.

With thanks and kind regards.

Yours sincerely

Elizabeth Burton
