

Electoral Representation Review - Boroondara City Council - Preliminary Submission
Camberwell Junior Football Club - Camberwell - 13 March 2019

The concern is that the VEC in association with State Government does not have the capacity to dictate the electorate structure or restructure, and without input from local residents, and/or community entity representatives the VEC can not determine to implement an outcome that is less favourable to those that have developed a positive working relationship with their single ward councillor and/or adjoining ward councillor(s).
