

Dear Victorian Electoral Commissioner,

I would like to record my objection to suggested changes to council representation in the City of Boroondarra for the following reasons.

The current system of representation of 10 wards with respective 10 elected councillors is more than adequate to reflect the concerns of rate payers across the municipality .

The current system has served our municipality well.

In my view the current single-member wards structure for Boroondara should be retained, as this is the best structure to meet the needs of the Boroondara community because:

- it allows easy access to your local representative;
- local representatives have a greater understanding of their local area;
- single-member wards provide the best representation;
- it reflects the individual elements of our diverse community;
- it provides one primary point of contact and ensures a consistent approach; and
- different neighbourhoods have different needs. Local representation ensures these differences are recognised and supported.

I believe that multi-member wards are not good for Boroondara because:

- multi-member wards can encourage party political affiliations;
- councillors may be less accessible for residents in some parts of the ward;
- all of the Councillors may reside in the same part of the ward, leaving the remaining parts without local representation;
- residents may need to contact multiple councillors to raise awareness of an issue or galvanise support for local projects;
- there is potential for a duplication of work if councillors do not communicate or share their workloads effectively;
- councillors may be overworked due to increased workload; and
- councillors may have competing views about how their ward should be run, which may cause friction and be confusing for residents and businesses.

Thank you for your consideration.

Kind Regards

Paul F Dipnall
