

Electoral Representation Review - Boroondara City Council - Preliminary Submission
Cecilia Litchfield - Balwyn - 11 March 2019

As a matter of principle, if something is not broken then why fix it? I feel this applies to council representation in Boroondara. Our city council functions well as it is, and has been rated as one of the best councils for years.

A single councillor or local councillor to represent a local area is more relevant to the intent of council - to deal with issues at a residential level. Keep the wards and representation structure as is please.
