

Electoral Representation Review - Boroondara City Council - Preliminary Submission
Graham Scott - Camberwell -10 March 2019

Dear Electoral Commissioner

I have lived in the Boroondara area for most of my 70+ years and have been served remarkably well by the current system of one councillor for each of the 10 wards.

I firmly believe that the current number is appropriate, is sufficient and represents local issues without delay or confusion and is the most cost effective way to represent local issues.

I also hold the view that one local member has a greater understanding of the area and is therefore more accountable to us

Adding more people trying to do the same things does not create harmony but in fact creates division.

As a full rate paying member of the Boroondara community I strongly support the current system and even more strongly oppose the suggestion that it be changed.

Very Sincerely, Graham
