

Electoral Representation Review - Boroondara City Council - Preliminary Submission  
Kirsten Scott - Camberwell - 12 March 2019

Dear Victorian Electoral Commissioner

I am emailing in support of the ten single-councillor wards for Boroondara City.

Because of my disability I have had great support from my single local member and I think it should stay that way I see no benefit to me or others in making us choose which councillor to represent us. Life can be difficult enough without complicating matters further. I have lived in the area for nearly 40 years and see NO reason to change something that has worked perfectly well. I also feel that councils should be looking for ways to reduce spending not adding additional councillors and therefore additional costs.

I urge you to consider the impact this suggestion would make

Sincerely, Kirsten
