

Electoral Representation Review - Boroondara City Council - Preliminary Submission  
Leona Scott - Camberwell - 10 March 2019

In my view the current single-member wards structure for Boroondara should remain the same. I have lived in the area for over 40 years and I firmly believe that the current system :

Allows for easy access to my local member

My local member has a greater understanding of my local issues and reflects the individual elements of our diverse community.

One point of contact is less intimidating and more practical.

Multi-ward members are NOT good for Boroondara:

I believe that different neighbourhoods have different needs that only a local representative can support, mine does this very well.

Changing to multi ward-members will complicate matters by creating confusion

The potential for duplication seems to delays results and galvanise people

The likelihood of competing views horrifies me and does not create the harmony Boroondara espouses.

I urge you not to change the current situation.

Thank you for your consideration.

Leona Scott.
