

Electoral Representation Review - Boroondara City Council - Preliminary Submission
Magnus Watson - Balwyn North - 13 March 2019

Dear Victorian Electoral Commissioner

The current number of councillors for Boroondara is appropriate and is sufficient to provide fair and equitable representation for locals. There is no major forecasts in population growth or increased communities of interest that would justify more councillors.

In terms of electoral structure, I strongly support keeping Boroondara local and with ten single-councillor wards. It is my experience that my ward councillor is a truly local representative, easily accessible and aware of local issues.

Thank you for your consideration.
