

Electoral Representation Review – Boroondara City Council - Response Submission  
Andrew Simpson – Kew – 7 May 2019

I support the preferred Option A as outlined in the preliminary report recommending increasing the number of councillors from 10 to 11 being elected from four wards 3/3 councillor wards and one 2 councillor ward.

The preferred proposal greatly improves access to a councillor of choice as Boroondara Council has become highly politicised dominated by one political persuasion with severely diminished democracy.

I believe Option A is preferable to Option B and dramatically better than the undemocratic status quo.

I am happy to speak at a public hearing if required.
