

Electoral Representation Review – Boroondara City Council - Response Submission
David Sparks – Ashburton – 7 May 2019

The Boondarra Council is not practicing genuine consultation or informing of residents of its ambitions or plans.

In some manner, the Council needs a wake up call and a reminder that it is elected by the residents to administer issues for the residents.

That is the Council or Councils need to be reminded of their responsibilities. Furthermore the Council must be aware the limit of their responsibilities beyond which they are not to participate.

The Council is not elected to undertake or implement matters, which to community has made strong representations against.

I support the VEC option A.

David Sparks
