

Electoral Representation Review - Boroondara City Council - Response Submission
Helen Tsoutsouvas - North Balwyn - 29 April 2019

Thank you for the opportunity to provide a response.

Of the options presented in the VEC preliminary report, I support Option A as it provides the best coverage of community views.

However, ideally Option A should be amended to provide a fairer coverage for all four wards by providing three councillors for each of the four wards, giving a total of 12 councillors per municipality. In other words, why should one ward be unlucky to have only two councillors while the other three wards have three councillors and decisions are passed quickly and smoothly with a 2 to 1 majority rather than a 1 to 1 deadlock for the 2 councillor ward.

yours sincerely

Helen Tsoutsouvas
