

Electoral Representation Review – Boroondara City Council - Response Submission
Elliot Watson – Balwyn North – 3 May 2019

To whom it may concern,

I find the logic used in your review quite interesting. One of your arguments is that change is desirable because other Councils have changed, but you have not assessed whether those changes has been successful or not. I would strongly argue that generally, those changes have not been successful.

Based on the overall situation, I support having 11 single-councillor wards to overcome potential drawn voiting issues, and to ensure that councillors are wholly, singly, accountable to their local areas, and that their depth of knowledge for their own areas is not diluted.

Regards,

Elliot Watson
