

I have been a resident and rate payer at [REDACTED] Tamboon since 1969 and a full time resident since 2000.

I would strongly support the introduction of a ward system. I have not seen any substantial input into Tamboon in that time. Requests for improvements to road safety has largely been ignored and councillors have shown little interest in supporting the community here. Cann River also has suffered in the past and the community often ignored as to its expectations.

We need councillors directly elected from within our communities but the tyranny of distance to undertake that responsibility is daunting.

I would much prefer de-amalgamation and a new Local Council re-introduced similar to the Orbost Council of the past.

I largely support the submission of Peter Giddings and am I also have a knowlege that the issues in Mallacoota are similar to Tamboon and Cann River.

I would like to see more democratic processes than Councillors trammelled by an incorporaated body and sometimes too closely linked to the CEO and the beurocracy.
