

Electoral Representation Review – Glenelg Shire Council – Response Submission  
Karen Hunter - Bolwarra – 16 April 2019

In response to the Glenelg shire review I would like to see the adoption of the Wards. Particularaly the 3 wards. With a North, Central and South Ward being adopted. Due to the large range that the Shire covers and currently only 1 Councilor representing the North and Central part of the shire. I would also like to see a recommendation on the number of terms that any Concillor can be elected for. I feel that anything past 4 terms is too long and they become complacent in their roll. Within this shire we have a range of issues that don't get addressed and alot of funding that stays in Portland and not seen else where in the shire. A fair ward system would be North 2, cental 1, South 4 this would keep the 7 councilors and a fair representaion of the Shire. Also the Concilors would have to think for themselves and not just agree with encumbert members
