

Electoral Representation Review - Glenelg Shire Council - Preliminary Submission  
Rose Kelly - Heywood - 29 January 2019

I believe that the current structure of the Glenelg Shire Council needs to change. The current setup does not allow for fair representation or a voice for many areas of the Shire, particularly since Glenelg shire is quite a large area in its-self. There are areas and populations such as Heywood and Nelson that are left out due to the format.

The Glenelg Shire needs at least 8 - 10 wards and representative. Wards could be allotted due to location and population. Naming of these wards could be based on geograph signifigance
