

Electoral Representation Review - Glenelg Shire Council - Preliminary Submission
Noel Norris - Casterton - 9 February 2019

In terms of electoral structure I believe the current unsubdivided system is not delivering for districts outside of Portland. Of the 7 councillors elected in the last election 6 live in the Portland district. With all the good will in the world I believe this is not conducive to a consistent whole-of-shire development agenda. Wards may not be the perfect solution. However, they do offer community within the ward a voice. I submit that our shire would be best served by a ward system.
