

Representation Review - Manningham City Council - Preliminary Submission
Jim Grivokostopoulos - Bulleen - 18 Jul 2019

I wish to place in a submission for the Manningham City Council municipality review. The number of Councillors increased to 11 where the following Wards increase in their respective wards.

Heide Ward 4

Koonung Ward 4

Mullum Mullum Ward 3

This will allow for a Council made up of 11 Councillors and will allow for a better representation of Councillors as per the caspita increase of residents over the past 10 years.

The electoral structure of the municipality to either remain subdivided as per the 3 current wards and become Multi-councillor wards and subdivide to distribute residential borders as per pre 1990's. This again will allow for a better representation of the Municipality for the increase in residents over the past 10 years.
