

Representation Review - Manningham City Council - Response Submission
Adam Newman - Wollert - 29 Aug 2019

I support the preferred option outlined in the preliminary report. I am glad that both options have a very low rate of voters being effected, as I believe the current ward boundaries are effective for the people of Manningham. In Option A, Heide Ward unites the communities of interests of Bulleen and Templestowe, and ensures that population growth within Koonung Ward, which mainly covers Doncaster and Doncaster East, will be appropriately managed in order for the ward boundaries to remain feasible. I do not support Option B bringing more of Doncaster East into Mullum Mullum Ward. Doncaster East has stronger links with Doncaster than Warrandyte or Wonga Park, and I do not believe it will be beneficial for the people of Doncaster East to place them into the more rural ward of Mullum Mullum. I do not wish to propose any ward name changes. I do not wish to speak at the public hearing.
